## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 20-24 and 26-41 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art either singly or in combination fails to anticipate or render obvious the limitations of,  
  
directing a laser upon an electrically-conductive cut-link pad conductively bonded between a first electrically-conductive line and a second electrically-conductive line on a substrate, the cut-link pad having substantially less thermal resistance per unit length than each of the first and second lines, wherein the width of the cut-link pad is at least ten percent greater than the width of each of the first and second electrically-conductive lines.

As stated in the office action of paper # 8, by incorporating the shape of the cut-link pad into the independent claim, said claim would be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
